You can choose any payment method you want to pay with. Just make sure you select a payment method that matches with the number of months you have selected (3,6 or 12 months). If you go for a 3-month package, then you will be offered to add your credit card, PayPal and other options. Next, write a secure password on the next page and finish the process by clicking on "I am not a robot.",

Mods often change features of your game without actually changing your world. For example, there are mods that simply make you invincible or allow you to fly for unlimited amounts of time. These kinds of mods work by changing the existing rules and code within Minecraft so that they can replace them with new ones. This way they can add new features or block-types to the game without actually having to change your world. These kinds of mods are usually easy to install because they often replace certain files in Minecraft rather than adding anything new to it. Keep in mind that often, when you want to remove a mod that is already installed, you need to uninstall it completely.",

What is a Minecraft Server – Minecraft Servers are many things to many people, but at their core they allow multiple players to connect and play together on a single world. Whether it is a survival server with the sole purpose of surviving in order to build something spectacular or a creative server where players come together and build whatever their minds allow, Minecraft Servers are an experience unlike any other game on the

market today.",

Once you know the IP address, visit the Minecraft Server Hosting Provider's web page and find the info about how to connect to it. You can either give them your Minecraft username and password or you can access their information directly by typing in the IP address into their website. If you are using a Bukkit or Tekkit server, then all of this should be included in their instructions for connecting. With an individual server, you may need to read through these steps again if there are any slight differences between your own personal server and the one that you are trying to connect to.",

Always back up your world:Before installing a mod it is always a good idea to save your world before you do anything else. This way, if something does not work out and you need to uninstall the mod or require a clean save, you will not lose everything. This is very important and we cannot stress enough how important this step is for most players! Install it correctly:Installing mods is different for each of them because they all have different requirements and rules about what files they will change in Minecraft. For example, some mods will just replace certain files while others will replace a lot more. Make sure to read the mod's description and the developer's website and follow them accordingly. If you trust the mod's description or its developer in general then it is probably safe to install it. If you are unsure at all, it would be a good idea to examine each of your files before installing so that you can see if anything has been altered by this mod.",
