I personally think that the vast majority of Roblox games are for children. There is only a few games that are suitable for adults which were developed in recent years, but there are also a large number of games that have been around for years, and it is still very popular. I don't think there is anyone who has played this game since they were a child, so it's not like people will stop playing because they're unhappy with the newer games.

To use this tool you need a ROBLOX account on your device. Download this free application and follow the instructions to setup your account (If you don't have any yet). Put in your game ID and get enough points from playing for the amount of free robux that you want. You can redeem them on Roblox or keep them in your account and use them on other games later. Don't worry about getting banned because of this tool, all of the points are temporary and will be deleted after 48 hours. Have fun!

Roblox has been criticized in the past for not having any real-life weapons or vehicles because everything is made of blocks and visual effects.[58] However, ROBLOX has announced that they will be adding weapons and vehicles to the game soon.[59] They later went back on this statement by saying they would only add 3 weapons/vehicles at this time.

The acquisition is part of a strategy by RoLabX to become a global gaming powerhouse with operations in China, with over 50% of revenues coming from China alone by 2021. The deal also confirmed that Tencent will continue to operate as the chief customer and user experience partner for ROBLOX. In late 2015, ROBLOX announced that they would be running advertisements on their site. Unfortunately, these advertisements were run-of-the-mill ads and did not produce any revenue for the company itself but also had a negative impact on their community as they were being flooded with ads featuring nudity, extreme gore, racism and other inappropriate content. In addition to this, many games would feature these ads despite not making any money from them themselves. ROBLOX was banned from Xbox Live in 2015 due to the game running advertisements which violated Microsoft's Terms of Service by being inappropriate for children. The ads contained anime-style nudity and extreme gore. This was later changed however when Roblox reached an agreement with Xbox Live regarding the matter between them.
