On April 22nd 2015, Roblox released a beta version of the game which was named "Destination: Survival". This beta has been removed and a few of its features were added to the game "Video Player for ROBLOX" which was released on November 6th 2015.[57]

ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.

ROBLOX also has a plugin called "Google Play", which allows any application made with Google Play's interface to be distributed on ROBLOX. The first release of this plugin was in April 2015, but there have been many updates since then.

ROBLOX is among the few websites that provide analytics data on their members. This data is collected from the number of visitors, members and games played. Many large groups have been created to publicize the statistics of ROBLOX. One such group is "We Hate Fake Players", which regularly posts ROBLOX statistics on its profile.[43]

- The fact that there are so many different games to play, it's hard to keep up with all of them. There is such a variety of games which leads to me getting easily confused on what game I was previously playing and where everything was set up. That's why I am always working on the same game over and over again.
