There were reports of auto-attack bots from a group called "ArtRage" which was hacked to attack other players in order to force them out of the game, and then to prevent them from ever returning. On April 12, 2014 there was a report from an Arianespace engineer that someone had been "hacking into rocket control computers and maneuvering vehicles on the ground". The players involved were reported to be ArtRage members.

These promo codes should not be confused with cheats or hacks because they do not have any negative effects on your account. These codes are just a way for you to gain more access inside your account so that you can enjoy the games faster. If you have not been using it before, then you should start using the Free Robux promo codes for ROBLOX site immediately. This is the easiest and best way for any player to get a lot of robux so that they can enjoy a lot of fun on Roblox.

Hacking Roblox is a form of hacking. Hacking in general, when not applied maliciously, is the process of enabling access to computer systems that would otherwise be unavailable or difficult to access.

The next game that would allow users to do this was Parkour Paradise on August 16th of 2012. ROBLOX is the first game to have a player base where 70% of their players are between ages 10-15 and 30% are between ages 15-25.[126]

In 2010, ROBLOX updated their entire website to match the current version of their branding. The new design was made to be sharper and cleaner than the former one, and removed many visual effects that were seen as archaic and dated. A few key features of this change include a slightly larger "R", as well as a background shape for it similar to that of a "double-r", which ended up being used for every future iteration of the logo. This design is still used on the website today, albeit with variations in how it is utilized.
