Builders Club Premium is available to all Builders Club members. For the purposes of the ROBLOX Terms of Use (from which these terms are derived), premium features and paid-for items are considered one and the same. In order for a game developer to provide Builders Club Premium, an agreement with ROBLOX must be obtained from ROBLOX.

During the time when Roblox was first being developed (2004–2007), there were a small number of games created that were designed to troll or harass other user accounts on the game platform. Trolls could take advantage of the limited moderation tools and exploit loopholes in the "Terms of Service" and "Community Guidelines".

ROBLOX has created a number of recurring events over the years. On October 23, 2012 Robotrab had announced a new way for Roblox users to make money by selling virtual items in the Roblox catalog: the "Builders Club". Players use Roblox's in-game currency, called ROBUX, to purchase items which they can sell to other players.

There are a lot of users, Robloxian's who do this and it is not really good that their voice is blocked as well because it is extremely annoying when you don't know what they are saying to you. This happens to me all the time and I think this needs to be fixed.

At some point in mid-2015, they started using blockchain technology on their games as a way to verify ownership of an in-game item or character and prevent cheating. In December 2016, they launched a new internal system which allowed users to sell their games directly from the ROBLOX catalog instead of uploading them to the website's database.
