On January 2nd, 2019, Studio 2.0 was released to the public.[92] On January 7th 2019, ROBLOX announced that they would be releasing a more complex version of this feature in the near future. On January 16th 2019, ROBLOX released "Studio 2.1" which contained many minor fixes and new improvements.[93] On January 20th 2019, ROBLOX announced a new script where users can use to test their games if they have any performance issues. They also stated that there has been complaints about laggy games on their website that causes players to lose interest in playing them.[94]

Roblox can be a great way to find new friends because it has a lot of free robux codes which you can use for free games. This site really keeps you engaged since there are so many different things that you will want to explore in the virtual world. You will never get bored here because there are so many different games available here for you to play. There are many free robux codes which you will need in order to play these games since they are not actually free if you do not have them inside your account already.

Free Robux Codes are codes that can be used to get free Robux with the game Roblox. These codes are usually found by going through YouTube comments and deciphered from there. There is no guarantee the code will work, and if it does, you may not get the full amount of Robux you were hoping for. Each code posted on my channel is checked for legitimacy beforehand. In order to stay safe, you should know the difference between a cheats and a hack. The codes listed in the video above are not hacks. Hacks do not use codes, as they require an exploit in the game's coding.

On July 3rd, 2018, ROBLOX announced that they were no longer allowing people to make custom models for their games. Instead, they would be allowing users to build blocky models that could not be edited at all. They stated that this would prevent the creation of custom models and save money by preventing expensive data transfers.[22] The change was made in order to clean up the game because custom models complicates the "Roblox experience" in some cases.

Players can review other players' stats in the "Review Player" feature. The player reviewed must have interacted with the player reviewing at least once since the review request was made. A punishment system is also available for players who do not act in accordance with Roblox's terms of service or community guidelines.
