In response to these criticism, the ROBLOX website says that "Roblox does not condone the use of unauthorized software programs in games." However, this is not always the case as all users have full access to all of their content. In addition, if a publisher chooses to remove a particular asset from their game they cannot be held accountable for it."

All the people who play Roblox have a lot of positive feelings about the game; it's because of this that a lot of people have been telling me that I should get involved with it. I am pretty sure that this is a good idea because I might really benefit from playing the game as well. Since Roblox is constantly being updated, there are many new features that can help me and my friends play together. I also think that it is a great way for me to learn and experience many different things. I really want to get involved with Roblox because I know that it can teach me a lot of things. Also, it is great that I can meet new people online who are my age and like the same things as me.

In December 2011, a lawsuit was filed against Roblox for copyright infringement, in which ROBLOX is accused of copying the entire codebase and game assets of "Infinity: The Quest to the End of the Universe". A cease and desist was also filed against ROBLOX in September 2012 by a head developer from the website Games Done Quick for using their copyrighted content without permission.

I also think that Roblox is a great way for children to develop a lot of positive skills because they are using their imagination in every aspect of their game. For example, if you want to create your own avatar but don't know how, then you can just create different body parts such as hair or skin color and add a pretty face with an outfit. This will help them feel comfortable and not afraid about trying new things.

One example of a troll game, created in 2005, was "Uppercut". This involved players being knocked into the air when they attempted to create their character. However, when the player hits the ground, they were shown a message saying that the creator of this game had disabled their inventory and that they had been defeated.
