The next time you log into your Roblox account, it is recommended that you take a moment and really think about what information and/or games can be accessed by the hacker. If this is not enough, start using anti-virus software to look over your computer for any unauthorized programs installed on the system. Never share personal information with any website that requires it, especially when it contains your email address.

On September 30, 2012 ROBLOX Studio was released. This app allowed users to develop games using their tablet devices as well as their computer. Builders Club was also released around this time; however it cost 10 ROBUX to join Builders Club until March 2013 when the price was raised from 10 ROBUX to 100 ROBUX per month.

On September 30th, 2018, ROBLOX released a "make your own toy" simulator called "Work at a Pizza Place". It proved very controversial as many users perceived it to be a lazy game and was rushed out without being finished. There were also many players complaining about how they could make money by selling pizza hats and shirts. However, this was only intended for people who would want to work at ROBLOX pizza.

In December 2016, Roblox changed its website design again.[64] This can be viewed here: Roblox Main Page. An official subreddit was created in January 2012 by user pb\_bacon.[65] It has since grown to have over 3,000 subscribers (as of May 2018) and 338 pages (as of May 2018).

On August 28th, 2019 ROBLOX announced the discontinuation of ROBLOX Custom Physics in favor of Bloxlet. This will eventually be released as an update so that all games made for Classic ROBLOX mode will automatically have the new physics system in place, but there is an unknown future for what will happen to those games when the discontinuation happens.
