In March 2018, ROBLOX introduced "VRChat", a game where players can create their own social VR experiences and attend live events. This game was released as a beta version on Steam Early Access in March 2018. A release on PlayStation 4 is planned for August 28, 2018.

11. There is a rule that allows inappropriate activity on Roblox to get banned. 12. There are too many glitches within the game such as the bug where the game does not close when you come out of a video, and it doesn't force you to close but it just stays on the screen, and even though you are out of the game, your character is still doing stuff such as talking about other people's friends and such. 13. Roblox needs to have a platform for developers where they can submit their games without them being judged or having any problems with inappropriate content getting banned along with their account and everything else that goes on within this platform.

Roblox Suggestions (Steam Community) - This is a helpful site where you can submit suggestions to the Roblox administrators. If there's anything you'd like to see changed or updated, this is where you should post your suggestion. People are constantly submitting suggestions on this page and it can be easy to miss. You'll also receive notifications if anyone liked or commented on your suggestion, so it's easy to know if people were interested in what you posted.

Every year since 2011 Roblox has hosted a "Developer's Conference" at the language center of Carnegie Mellon University. In 2013 and 2015, the conference was held in Washington DC. It is usually held between late July and early August. The event includes a keynote from an important person of interest to Roblox developers (i.e., one of the founders).

On December 10, 2018, the "Free robux" cards system was removed by ROBLOX. Many players believe that this was done due to scamming of codes and due to players complaining about receiving cards they didn't want.
