The Free Robux application is compatible with almost every device, and can be used to play games on the computer or on your smartphone. This means that users can play games offline when they are not connected to the internet. The 100Robux app is compatible with the devices which launch in 2017, such as iPhone 7, Samsung Galaxy S8 and Google Pixel.

The Market is an area where players can buy and sell in-game items. Items sold here will typically be cheaper than in-game shops. This is the only way to buy items from outside the game, as users are not allowed to purchase things from other places such as the in-game shop.

A group of Roblox players petitioned against the aforementioned avatar update for over two years before it was actually implemented. The change, in which the user could add or remove tattoos to their avatar, would allow them to earn more money as these tattoos could be sold to other players. Since some controversial tattoos were associated with this feature, some users were vehemently against the implementation of this change.

ROBLOX has also been criticised for its lack of badge incentives for participating in games, or even logging into the site at all. ROBLOX models these badges and credit prizes after the badges found in games like Journey, where a lot of doing nothing gives you a lot of money, which is possibly a reason some players don't log in. ROBLOX also has very few quests to complete that reward badges/credits.

Roblox gives players the option to purchase membership for High School, Middle School and Elementary years. Players can upgrade their account to a VIP member which gives them time to play online when not connected to school wifi, and playing in moderation on weekends after school. Memberships cost between \$9.99 USD (\$10 Note: this price has increased since August 2018 but was not posted until September 2018) for elementary students, \$12.99 USD (\$13 Note: this price has increased since August 2018 but was not posted until September 2018) for middle school students and \$17.
