On November 7, 2017, Roblox released their first real let's play channel, but it only lasted a couple of months before Roblox cancelled its plans for let's play channels. It stars RandomPlayer as he plays a wide variety of games on ROBLOX, including many popular games such as Angry Birds and Zombieland.

On May 29, 2015, ROBLOX decided to stop giving out high-quality builder's cards to anyone who has one of these cards, making it no longer possible for them to build long games on ROBLOX. This was the first time that high quality builders clubs were ever taken away from people who had them. On July 15, 2016, ROBLOX re-enabled the old low-quality builder's club and added another high quality builders card which can be used by anyone without making their game longer than 30 days. This update helped in the new Club Builder's Club Builder's Club Update which gave people who had builder's cards prior the ability to make their ROBLOX games longer.

Some of my other complaints on Roblox include:

There are a number of settings in your account that can be changed, including your e-mail address, password, birthday, username, and the overall look of your account. You can also add a picture or video to your profile. However, you cannot change the color of your name (unless you join up for a Builders Club subscription), nor the overall color scheme. ROBLOX offers ten different color schemes that players can choose from; these include Gold, Green, Blue, Black & Red and many more. Due to the nature of ROBLOX's game engine, players need to be able to manipulate various graphical elements by using the in-game tools provided by ROBLOX. These tools include resizing, rotating, and moving various objects and creating texture maps. It can be used in the creation of 3D games, but the game must be made using a 2D game maker such as Game Maker or Flash itself.

The free robux script is a tool designed to assist the Facebook user with automation. The free robux script allows people to automate their daily routine of posting on Facebook. The free robux script works by automating an individual's routine tasks, which are used for commenting, rating posts, and sharing news articles among others
