In 2010, they added an in-game browser which allows players to purchase resources with Robux from other players (mostly games). In 2014, they changed their website to a Flash-based platform. On November 11th of that year, the company finally launched their mobile app for iOS and Android devices.

The exploit is rather simple, all you have to do is know how to click fast and know when to stop. This glitch is one of the most common ways that people get robux for free on roblox and it may not be entirely illegal but it can break the rules of roblox's Terms of Service as well as their policies regarding hacking and cheating. The glitch has been patched, but there are other methods of getting robux such as buying them using real money or promoting a game for real money on a site such as Fiverr.

On January 12th 2019 RoBoX Studios uploaded a video of them waving in front of cameras. The description of the video said "Moped Wave" and there was a picture of the thumbnail saying "Moped Wave". Fans thought it was an advertisement for one of potential future projects. A few days later they uploaded a second video called "RoBoX Studios". This time they were counting to 12 in front of cameras with different colored backgrounds. On January 22nd 2019, after over a month, they have uploaded another video titled "RōBux". The description teased about a possible RōBux 2, which is a mini game in ROBLOX which is cash oriented. On February 18th 2019, they have posted another video titled "RSK", which is short for ROBLOX Studio Kit. This video showed three new projects that were planned to be released with tips on how to create them. On February 19th 2019, they had uploaded yet another video titled "ROBUX". This was a video where it showed a projected page about ROBLOX and what people play. The description read "ROBLOX has more than 200 million users who love playing Roblox games! Which is why next week we will be releasing RSK - the new Roblox Studio kit! It will feature tons of cool features and tools you can use to make awesome 3d games. Keep an eye out for RSK next week. The post was then deleted, then the video was deleted, likely to stop rumors and speculation of a new studio kit.[48] On February 26th 2019, they released RSK to the public under build mode.[49]
