On February 11, 2017, ROBLOX announced that they would be suing the website of DinoGaming Network for copyright infringement.[5] It was revealed that DinoGaming Network was using ROBLOX models with permission from their owners. However, DinoGaming's policy on asking for permission to use a model is so loose that any user could have given them permission without knowing it. On March 7th, 2016 the lawsuit ended with a settlement and \$7,500 awarded to ROBLOX. [6]

On October 8, 2017, they released a video showing large amounts of bugs and glitches in the game Frostbite. These include several bugs that allow for players to place guns and kill other players in mere seconds. ROBLOX said on their blog that this was due to an "incorrectly prepared prize package" but later stated that it was an error during a new update of their "Prototype Editor", which was supposed to have fixed the issues, but evidently did not.

Rated 4 out of 5 by Anonymous from Good for kids My son loves this game! It helps him study for his tests and play with his friends. His favorite part is that the creators have set everything up so that parents can control what their children see online.

ROBLOX released the "Achievements" update on June 20, 2017. This update introduced many new features for games, such as achievements, friends-lists, and more. Players can earn rewards by accomplishing certain tasks within their games and taking a screenshot to get them.

Some people also complain about the game being too confusing and requiring so much effort just to make 1 point or get Robux, even though it only takes about 3-6 hours of playing. They say that "Robloxian life" is actually a scam and they struggled to get it.
