**Spamming:** Roblox has been criticized for its extreme amount of spam. Some examples include the "Free Robux" scam, where people are tricked into giving their username and password to a third party so that they can steal their Robux, and the "You Have Been Tricked" scam, which consists of the offender saying something along the lines of "DON'T TRUST. HE IS TROLLING ME."

Even if you do decide to use the free robux promo codes for roblox, there are still risks involved. You should never share any information that can be used to identify yourself with other users in the website. A lot of people will not even want you to have these codes and they will always try to find a way to get them from you. You can easily detect who they are because they will always ask you for the code even if it is against the rules in Roblox itself. They will also tell their friends about how they managed to get a code and ask them if they want this one as well. You can easily avoid these people by knowing where you got your code from and who gave it to you.

Premium game mechanics can also be implemented in free games. However, due to the fact that all premium features are only available in Builder's Club, in most cases they will if there is no way for the developer to observe this from a third-party mod or script perspective, then it can only be done via a Builders Club Premium [63].
