The app is really easy to use, you just sign up with your email and then enter your username and password which was created when you registered on Roblox. After that it automatically detects your IP address, and then you can choose which device you would like to receive the advertising on. You can choose from a desktop computer, a laptop or a mobile device. The next thing you do is select the game categories that you would like to play games in such as anime, roleplay, sandbox and more. After making your choices, it will show you ads every 15 minutes and then give you free robux for completing offers. You may also skip an ad if you don't want to watch them when they pop up so frequently.

The game is not very challenging. Even though there are a lot of games available on it, there isn't much in the way of difficulty. This is a big negative in my opinion - especially for older kids who love to face tough challenges such as some video games on the market now which can sometimes be really difficult and where you have to wait for many hours in order to even pass the game. This might be a problem if you are playing with smaller children - some games on roblox are known to last for days or weeks before they finish. My 6 year old absolutely loves roblox and games like this are great for that age group. If you're looking to play with kids older than that then I'd suggest looking at something else. There is some violence in the game, but nothing major (for example you can only fight by swinging a sword or shooting a gun, rather than hand to hand fighting) and it's all in the context of a game. Overall we love it and it was worth the money!

On November 10, 2014, ROBLOX launched an invite-only beta for the virtual currency Robux. It was released to a small fraction of its user base whose accounts had been verified by Robotcrab, Inc. The currency was named after ROBLOX's mascot. All games and item purchases could only be made with Robux. The overall value of Robux is dependent on ROBUX exchange rates in the game itself; however, all players are guaranteed to receive the same amount of Robux (at the same time) regardless of their financial situation or how they choose to use them.

Rated 4 out of 5 by Anonymous from Pretty Fun This game is fun and very addicting but would probably be more fun if you had a personal computer or notebook. And sometimes there are annoying adds but overall its a great game if you want to have some fun with your friends online.

The Roblox UI has a webcam in the bottom right corner, and many players have found that other players have used this to take pictures of them or record them without permission. This was also reported on an academic blog site.
