There are a lot of users, Robloxian's who do this and it is not really good that their voice is blocked as well because it is extremely annoying when you don't know what they are saying to you. This happens to me all the time and I think this needs to be fixed.

ROBLOX has official clients for Windows, macOS, Linux, iOS, Android, Xbox One, and PlayStation 4. ROBLOX also has a game engine called "Build" which can be downloaded for free to those wishing to develop games for their website. Although not officially supported by ROBLOX themselves, the client source code is also available on GitHub. As such, there are unofficial ports of ROBLOX to other platforms not supported officially by ROBLOX such as Xbox 360, Raspberry Pi and Tizen. An early attempt at an iPhone port in 2021 was unsuccessful due to concerns over the stability of the platform and a lack of toolchain support.

This one is a really annoying method to get free robux but what you can do is take advantage of the events. If there is an event, then you should grab your friends and start playing as well. Once you play for a certain amount of time, then you will get a lot of free robux. The more friends that are playing during the event, the more free robux you will be getting.

This redesign adds a many features and improvements such as new search function, expanded news section, easier access to games and groups/communities, expanded mobile version of the site, ability to message anyone on the website regardless of whether they are a user or staff/trade with users without the need to add them first (members must have this feature enabled), expanded trades panel with detailed card information, ability to cancel trades before they are completed when there are no funds involved on either side of the trade to prevent scams that involve giving out items for free and getting items or money in return but never giving back the items that were given.

There are already so many other games which really offer no value at all but still manage to rack up millions of dollars in profits. They manipulate players into becoming addicted to their games like gambling addicts by design. At least gambling junkies have the option to take a break and decide when they will spend money and get back to having fun again.

The community is toxic in many ways, Robloxian's have made characters with inappropriate content such as swearing in their usernames or wearing inappropriate clothing that make it look like they are roleplaying as an adult even though they shouldn't be.
