A game called "The Mad Murderer" has been criticized by Roblox users as being violent. The game allows players to kill other characters by using a knife or a gun. It was reported that German and French users discovered the game while they were in Las Vegas for a conference. In response, Roblox changed the coding of this game so that the users can only use the knife when playing the game, instead of using guns as well. Players who used guns on other players would be banned from Roblox. Roblox stated that they were "going to continue to refine the game".

Rated 4 out of 5 by Anonymous from Awesome It's an awesome game and I like how you can make your own games on ROBLOX! Rated 3 out of 5 by Anonymous from It's alright I really like playing roblox. The only thing I don't like about it is that you have to pay for a lot of things. Rated 2 out of 5 by Anonymous from Worthless the only thing this app is good for is getting annoying ads Rated 1 out of 5 by Anonymous from This app should be deleted It has alot of ads and it doesnt let me play any games. I've tried to pay for it but I have to pay for al of the games.

When one makes inappropriate content in Roblox-like swearing in their username or wearing inappropriate clothing they are roleplaying as an adult - the creators aren't doing anything about it. There are moderators but there should be more because some do not care about these problems or do not log on to Roblox at all times.

On May 8, 2015, Builder's Club was released for mobile devices. Users can build games on their mobile device and upload them to the catalog. Users can now play on their devices and make money by selling their games. This was the first time a platform has allowed mobile users to make money from their creations. Also in this year, ROBLOX announced that they were giving all accounts \$1 million of Robux for free (for a limited time).

ROBLOX has also been criticised for being very difficult to use and has many bugs within the site interface itself, problems which seem to go unresolved by the development team despite repeated complaints over a number of years. Although the website's interface is not difficult to use, it has become more complex over the years with features such as video editing with a dedicated program and large amounts of unnecessary superfluous features. Some of the features include: UIs for uploading and viewing custom models, importing music, applications, and sounds; importing sounds from WAV files; creating galleries; creating art sheets; creating an unlimited amount of variations for models by changing their scale and pose; adding animations to models (e.g. walking); creating global themes which change every time you go into a game or lobby; creating global music tracks in . ROBLOX's interface has also become extremely frustrating, with a lot of features being inaccessible and hidden because of the aforementioned complexity.
