In June 2018, it was reported that TikTok had uploaded more than 1 billion short-videos in India from January 2018 to May 2018. This is compared with 500 million videos uploaded throughout 2017 by Musical.ly and Kuaishou combined. It is estimated that the app was used by approximately 18% of smartphone users in India in December 2017, a number that drastically increased to 81% of users in March 2018.",

Most TikTok users will agree that this platform is less innovative and less engaging than it should be in order to maintain their attention. However, even if users were aware of all of these issues with this platform, it would still not be clear whether or not they contributed to the drop off in usage. The drop in usage is likely the result of a number of factors including bad press and competition from other video platforms such as YouTube, as well as issues with both the app's interface and the lack of interest of many users. Overall, this platform has not been able to build a reputation for being useful or popular enough to retain more than its niche number of users.",

According to a report by "Bloomberg" in August 2018, Zain Saudi Arabia is working with TikTok as they use the platform as a way to educate young people. The app has reportedly been downloaded over 40 million times since it was launched in Saudi Arabia. The company also plans on working with restaurants and events to allow users to purchase food or tickets through the app. The app is also reportedly being used by doctors in Saudi Arabia as a way to educate people on how to maintain themselves.",

The app has also been accused of being culturally appropriative due to its overwhelmingly white user base, but as of 2019, it has a growing Asian userbase as well. However, many Asian people on twitter are criticizing Tiktok saying that the app is racist because the only Asian people on tiktok are usually just Korean people or people who post content in Korean &/or criticize Korea and Kpop (even though they know they won't understand korean). They say that the app is racist because they only feature korean or chinese people but never other Asian ethnicities like Japanese, Thai, Vietnamese etc.",

"Tiktok is an app that invites people to talk and make friends through conversation, voice record, text chat, and other forms of social media." Tiktok was formed with the mission to show how fun conversation can be. The company believes it has a special power in its ability to bring people across different cultures together. Tuaswiti Ketsirisup said, "Each person is a new conversation in itself."",
