The company's revenue is seen as a key driver for future revenue. According to the Global Gaming Sustainability Report by Eilers Research, ROBLOX generated \$15 million in revenue in 2013 and \$135 million by 2016. The report also estimated that ROBLOX will see a compound annual growth rate of 106% over the 2015–2025 period. The company has also completed two rounds of financing, raising more than \$250 million in 2016.

According to the ROBLOX website, there are over 15 million registered and active players. Like many other user-generated content sites for young children, ROBLOX encourages users to be safe and responsible on its site. It also has a moderation system that allows members of the community to report profiles and comments that may be inappropriate or offensive. Parents can also choose what games their kids can play, or even disable chat so other players can't talk to their child. ROBLOX has also introduced a new feature called "Guardians" which works like parental controls on most software. It allows players to set a game rating they are comfortable with, so that they can choose between games.

ROBLOX TV and the Roblox Channel: On September 22nd, 2018, ROBLOX released an official channel for their website named "ROBLOX TV". The channel showcases many games that can be played on the website.

ROBLOX's Terms of Service has many loopholes which allows users to get away with nearly anything, such as selling products that have been stolen from other users or using bots for their own gain. The system is also very inconsistent in how it deals with complaints and bans. One of the more infamous examples is user "Sephiroth", who had been banned for attempting to distribute his game, "TitanMC". The ban was eventually lifted, and the account became widely regarded as a joke.[11]

ROBLOX logo before 2014. The background was blue instead of red and white stripes were in the middle instead of the top or bottom.
ROBLOX logo before 2009. The background was green instead of red and white stripes were in the middle instead of the top or bottom. The logo used from 2009 to 2012 as a banner (not yet released). Using it as a banner, it was at the top when it was released to users, becoming more popular than the original image upon release (which it shared with Minecraft). Logo before 2012.
