On May 31st, 2019, ROBLOX released an update to their engine which brought along a new physics engine known as "Bloxlet". This engine can be used in nearly all of ROBLOX games and will allow players to play in one of the three different modes: Classic ROBLOX mode which is using the older version of the physics engine from ROBLOX that was introduced on June 12th 2018, Bloxlet mode which uses the new physics system introduced on December 18th 2019, and Customized mode which allows users to customize their own physics setting. It is unknown whether or not this feature will be maintained through future updates.

ROBLOX has partnered with Twitch since November 2015 to promote each other.[46][47] ROBLOX allows Twitch users with a verified channel to have an emote based on their Twitch avatar that can be used in the game and vice versa. In August 2016, ROBLOX announced Twitch Prime as one of the benefits that members would receive for being a subscriber. It was first available as a free trial. On January 30, 2017, ROBLOX added a special gift of virtual currency to Twitch Prime members every month. This virtual currency is obtainable by watching adverts on Twitch and logging in with an account that has been linked to ROBLOX.[48] On February 5, 2017, ROBLOX announced that they would be removing the link between Webkinz ID and Twitch Prime.[49]

Roblox is involved in a lawsuit concerning child safety on the Internet. On September 17, 2010, two brothers filed a lawsuit in the United States District Court, Southern District of California against Roblox Corporation and its founder and CEO David Baszucki. The suit alleged that the defendants failed to protect their nine- and thirteen-year-old sons from inappropriate content on Roblox that resulted in emotional distress. The suit also accuses the company of negligence for failure to monitor potentially harmful content and failure to institute parental monitoring measures. The case is known as "McDonald v. Roblox".
