In August 2017 Moon Active announced that they had signed a deal to create a "Coin Master" themed game titled "Poke Monsters World Tour". The game is also based on the successful Pokemon franchise and was designed by Moon Active in collaboration with Nintendo, The Pokemon Company and their development partner Niantic. The game is expected to be released for Android and iOS mobile devices in 2018.",

Coin master is a free, single-player, casual mobile game created by Israeli studio Moon Active. It is made using a modified version of Unity3D and was released for iOS devices on August 20, 2017. The game can be downloaded from the App Store and is available in English, Spanish, German, French and Italian.",

This game features eight "coin tokens" which represent fruits, vegetables, and animals. Players collect these coins during the gameplay to earn points in the game. Three of the coins are represented by card illustrations; these coins are more likely to be found in chest rather than buried in the ground as with coins with illustrations of humans and animals. There are currently five sets available; one set is for each type of coin (four sets for negative coins and three sets for positive coins) giving a total of twenty-eight characters.",

In June 2018 Moon Active announced that they had signed an agreement with Warner Bros Entertainment to expand upon Coin Master through multiple video game projects including a new mobile title, which was announced to be released as "Coin Master 4: DC's Justice League".",

Fun, but.. by Aqueela on 2014/12/14 12:46 First of all, I love the concept of this game and, as an avid puzzle solver, I enjoyed completing the puzzles needed for each level. The game has some great features such as timed puzzles, word hints and more. However, I do have a few criticisms. First of all, the ads are sooo annoying! I've downloaded over 10 games in the past 2 weeks and every one of them had to be deleted because of the ads. Secondly, I was kind of annoyed with having 2 sets of tiles in a level then receiving new tiles from the previous board when you complete it. Finally, the timed levels were not that challenging and could have been better developed (so that you could make mistakes without losing time).",
