Collectors can customize their individual level progression through quests, tournaments, and collections to make their way from Novice Player all the way up to Expert Collector status. Players have access to four different quest types: Fish, Card, Star, and Coin. Players have the opportunity to win rewards such as coins, cards and boosters, which can be collected through collecting cards or completing quests. The greater the number of stars earned in a quest the better the card will be in game play."

Buyer's Beware by Meelzamax on 2018/11/07 07:26 This game starts out amazing, and if you spend money or wait months to progress. But the developers are greedy, want you to spend a lot of your time in the game or spend actual cash. The problem is both I think. One day I was playing it was a normal day and out of nowhere my kingdom got deleted for no reason at all. I emailed them and they said that someone else had reported someone with my name, but there was only one other person with my name on this planet playing this game. Now most people would say that I could just make another account... good luck. The process takes like a week and you have to start over from square one. Once you do, if you're at an advanced level, the game is set up so that you will no longer play it...in other words they are banning you because people will eventually find a way to cheat as there is no spam filter and they delete any account with more than one person on it. Either spend lots of cash or just don't get into this game!",

The game was launched on the Google play store in August 2012. In December 2015 Coin Master was removed from the play store for unknown reasons but it continues to remain available on its own website. Moon Active announced in October 2016 that "Coin Master" was shutting down. However, in 2018, Moon Active released version 1.1 for iOS devices which contained support for 3D touch devices and some other bug fixes. They also announced another new game called Coin Master "Dig Deep" which is similar to the original Coin Master but has added features such as a virtual currency system and features much more content than the original game."

"This is one of my favorite games because of the different levels and how easily it takes all my free time. It would be cool if there were different games you could play with friends online and offline. Also, I would be better off if you could actually get coins without spending your real money on them through in-app purchases or by downloading another game that requires real money. It would also be cool to have a way to actually get coins and lives without having to pay for them." "I love this game because anyone can play it, anytime, anywhere. But I just don't quite understand how they are trying to make money. You have these extra lives you win from watching videos or playing other games, but they are not enough unless you spend your actual lives on them through in-app purchases or by downloading another game that requires real money. I would give this game five stars except for the fact that I feel like there's a lot of potential wasted on how they are trying to make money. Hopefully the developers will change their ways. I would love to give this game five stars because the graphics are good, and it is entertaining.""
